## About us.

The Bimatics Ltd., founded in 1989, has the headquarter in Sibiu and a location in Stuttgart.

The company offers "High Quality" solutions that will be used for the optimization of various processes.

The area of activity from our customer is the automotive, engineering, mold construction – injection molding, quality management, automation engineering, trade fare construction, healthcare.

We consider that we are an identity service provider.

Together with the customer, we conceive and design solutions for his company and its workflow, which are always a part of a ensemble and yet something unconfusable.

- With meticulous analysis at the beginning of the assignment.
- With passionate debate at the conception.
- With precise arguments within the persuading.
- With affectionate precision within the implementing.
- With focusing on the substance.
- With the assertion to turn the impossible into possible.
- With our clients together.

We do not think in disciplines.

We think in solutions to facilitate your advance that will make the deciding difference.
